# Drinking too much?

## Worried about your own, or someone else's, drinking?

For most people, alcohol is an occasional pleasure, however, for some of us, drinking alcohol is a way to cover up bad memories, and forget our problems.

Lots of us know a friend or family member who drinks too much. This can often cause problems and make life difficult for everyone.

Some people need a drink just to get through the day. Unless you seek help, you can become addicted to alcohol.

### What are the signs?

- Continuing to drink, even when you know this is harming you, your family, your employment and your friendships.
- Experiencing unpleasant physical symptoms if you try to stop drinking such as vomiting, sickness, sweating, fits and uncontrollable shaking of the hands.
- Needing a drink when you wake in the morning.
- Spending all your time thinking about when you can have your next drink
- Not being able to stop drinking when you start.

**Share Shrewsbury is a new local charity which aims to support anyone affected by alcohol addiction**
